Dear Skip:

I am writing to thank you for the work you did with our team earlier this year.

Your unique and creative processes helped our team focus on key priorities that allowed us to move forward in a number of key areas.

As a result of your guidance in setting priorities and evaluating our present customer base, we were able to take specific actions to raise the bar on our lower level clients and make them more profitable. We also were able to create new opportunities to expand business with some of our best clients.

The work we did together has had residual and long-term benefits for JIT Hardware long after you finished the project.

Thanks for a job well done.

Best Regards,
